

Jay SHEERER et al.  
Reissue Application of Patent No. 6,375,796

### REMARKS

An entire set of the claims, as currently amended, is being submitted in accordance with 37 C.F.R. §1.121(c) ("Each amendment document that includes a change to an existing claim, . . . or addition of a new claim, must include a complete listing of all claims ever presented . . . in the application."). See also 37 C.F.R. §1.173(b)(2).

Examiner Walls requested that the claims of the patent under reissue (US Patent 6,129,816) be substituted for the claims originally submitted with the reissue application. The claims originally submitted with the reissue application included the amended claims, which are now being resubmitted by way of a revised preliminary amendment.

The claims submitted by this amendment are substantively identical to the claims of the original reissue application.

All claims are in good condition for allowance. If any small matter remains outstanding, the Examiner is requested to telephone the undersigned. Prompt reconsideration and allowance of this application is requested.

Respectfully submitted,

**NIXON & VANDERHYE P.C.**
